Independent Auditors' Review Report

The Board of Director's
Emerging Display Technologies Corp.

We have reviewed the accompanying consolidated balance sheets of Emerging Display Technologies Corp. (the Company) and subsidiaries as of June 30, 2017 and 2016, and the related consolidated statements of comprehensive income, changes in equity and cash flows for the six months ended June 30, 2017 and 2016. These consolidated financial statements are the responsibility of the Company's management. Our responsibility is to express an opinion on these consolidated financial statements based on our reviews.

We conducted our reviews in accordance with Statement on Auditing Standards No.36 "Review of Financial Statements" issued by the Auditing Standards Committee of the Accounting Research and Development Foundation of the Republic of China excluding below paragraph. A review consists principally of applying analytical procedures to financial data and making inquiries of persons responsible for financial and accounting matters. It is substantially less in scope than an audit conducted in accordance with auditing standards generally accepted in the Republic of China, the objective of which is the expression of an opinion regarding the consolidated financial statements taken as a whole. Accordingly, we do not express such an opinion.

The above subsidiaries' quarterly financial statements of the Company included EDT-Europe ApS, Emerging Display Technologies Korea, EDT-Japan Corp., Emerging Display international (Samoa) Corp., Tremendous Explore Corp., Ying Dar Investment Development Corp., Bae Haw Investment Development Corp. and Ying Cheng Investment Corp. which were based on these investees' un-reviewed financial statements for the same reporting periods. Total assets of these subsidiaries (after eliminating internal transactions between affiliated companies) were $288,549 thousand and $272,038 thousand, representing 8.23% and 7.50% of the Company's consolidated total assets as of June 30, 2017 and 2016. Total liabilities of these subsidiaries (after eliminating internal transactions between affiliated companies) were $94,353 thousand and $73,313 thousand, representing 5.73% and 4.47% of the Company's consolidated total liabilities as of June 30, 2017 and 2016. The comprehensive income and loss of these subsidiaries (after eliminating after-tax effects resulting from internal transactions between affiliated companies) were income $12,610 thousand, income 806 thousand, and income $7,897 thousand, income $14,177 thousand representing 24.49%, 3.56% and 44.95%, 16.76% of the Company's consolidated comprehensive income and loss for the three months and six months ended June 30, 2017 and 2016.

Based on our reviews, except for the preceding paragraph that investees' un-reviewed quarterly financial statements and as stated in the above first paragraph that there might be adjustment of quarterly consolidated financial statements, we are not aware of any materials modifications that should be made to the consolidated financial statements referred to above for them to be in conformity with the Guidelines Governing the Preparation of Financial Reports by Securities Issuers and International Accounting Standards 34, "Interim Financial Report" endorsed by the Financial Supervisory Commission for the Republic of China.

Amendments to IFRS 1" and IAS 28 "	January 1, 2018
IFRIC 22 "Foreign Currency Transactions and Advance Consideration"	January 1, 2018

Except for the following items, the Group believes that the adoption of the above IFRSs would not have any material impact on its consolidated financial statements. The extent and impact of signification changes are as follow:

A.IFRS 9 Financial Instruments

IFRS 9 replaces IAS 39 “Financial Instruments: Recognition and Measurement” which contains classification and measurement of financial instruments, impairment and hedge accounting. The actual impact of adopting IFRS 9 on the Group’s consolidated financial statements in 2018 can only be determined and reliably estimated depending on the financial instruments that the Group holds and economic conditions at that time, as well as the accounting elections and judgments that it will make it in the future. The Group will revise its accounting procedures and internal controls related to reporting financial instruments in accordance with the standard. However, the Group has performed a preliminary assessment of the potential impact of the adoption IFRS 9 based on its positions as of June 30, 2017 and hedging relationships designated during the first half of 2017 under IAS 39.

(a) Classification and Measurement-Financial assets

IFRS 9 contains a new classification and measurements approach for financial assets that reflects the business model in which assets are managed and their cash flow characteristics. IFRS 9 contains three principal classification categories for financial asset: measured at amortized cost, fair value through other comprehensive income（FVOCI）and fair value through profit or loss（FVTPL）. The standard eliminates the existing IAS 39 categories of held to maturity, loans and receivables and available for sale. Under IFRS 9, derivatives embedded in contracts where the host is financial assets in the scope of the standard are never bifurcated. Instead, the hybrid financial instrument as a whole is assessed for classification. In addition, IAS 39 has an exception to the measurement requirements for investments in unquoted equity instruments that do not have a quoted market price in an active market (and derivatives on such and instrument) and for which fair value cannot therefore be measured reliable. Such financial instruments are measured at cost. IFRS 9 removes this exception, requiring all equity investments (and derivatives on them) to be measured at fair value.

Base on its preliminary assessment, the Group does not believe that the new classification requirements, if applied at June 30, 2017, would have had a material impact on its accounting for accounts receivables and investments in equity securities that are managed on a fair value basis. At June 30, 2017, the Group had financial assets measured at cost of 185,000 and equity investments classified as available-for sale with a fair value of 227,334. If these investments continue to be held for the same purpose at initial application of IFRS 9, the Group may elect then to classify them as FOVCI or FVTPL. The Group has not yet made a decision in this regard. In the former case, all fair value gains and losses would be reported in other comprehensive income, no impairment losses would be recognized in profit or loss and no gains or losses would be reclassified to profit or loss on disposal. In the latter case, all fair value gains and losses would be recognized in profit or loss as they arise, increasing volatility in the Group’s profits.

As of June 30, 2017, the Group had open-end fund with a fair value of 260,799 classified as avaialbe-for sale financial asset. If continue to hold on the same purpose when adopting IFRS 9, it’s usually classified to fair value through other comprehensive income and the profit and loss of fair value afterward is recognized as profit and loss. The changes of fair value will cause the profit and loss fluctuation of the Group.

(b) Impairment-Financial assets and contact assets

IFRS 9 replaces the incurred loss model in IAS 39 with a forward-looking expected credit loss (ECL) model. This will require considerable judgment as to how changes in economic factors affect ECLs, which will be determined on a probability-weighted basis.

The new impairment model will apply to financial assets measured at amortized or FVOCI, except for investments in equity instruments, and to contract assets.

Under IFRS 9, loss allowances will be measured on either of the following bases:

- 12-month ECLs. These are ECLs that result from possible default events within the 12 months after the reporting date; and
- Lifetime ECLs. These are ECLs that result from all possible default events over the expected life of a financial instrument.

Lifetime ECL measurement applies if the credit risk of a financial asset at the reporting date has increased significantly since initial recognition and 12-month ECL measurement applies if it has not. An entity may determine that a financial asset's credit risk has not increased significantly if the asset has low credit risk at the reporting date. However, lifetime ECL measurement always applies for accounts receivables and contract assets without a significant financing component; an entity may choose to apply this policy also for accounts receivables and contract assets with a significant financing component.

The Group's preliminary assessment indicated that the application of IFRS 9's impairment requirements would not have any material impact on its consolidated financial statement.

(c) Hedging Accounting

When initial applying of IFRS 9, the Group can choose to continue the hedging accounting of IAS 39 instead of IFRS 9 as its accounting principle. The Group plan to continue the application of IAS 39.

(d) Disclosures

IFRS 9 will require extensive new disclosures, in particular about hedge accounting, credit risk and expected credit losses. The Group's preliminary assessment included an analysis to identify data gaps against current processes and the Group plans to implement the system and controls changes that it believes will be necessary to capture the required data.

(e) Transition

Changes in accounting policies resulting from the adoption of IFRS 9 will generally be applied retrospectively, expect as described below:

- The Group plans to take advantage of the exemption allowing it not to restate comparative information for prior periods with respect to classification and measurement (including impairment) changes. Differences in the carrying amounts of financial assets and financial liabilities resulting from the adoption of IFRS 9 generally will be recognized in retained earnings and reserves as at 1 January 2018.
- The following assessments have to be made on the basis of the facts and circumstances that exist at the date of initial application:
  - The determination of the business model within which a financial asset is held.
  - The designation and revocation of previous designations of certain financial assets and financial liabilities as measured at FVTPL.
  - The designation of certain investments in equity instruments not held for trading as at FVOCI.

B. IFRS 15 Revenue from Contracts with Customers

IFRS 15 replaces IAS 18 Revenue, IAS 11 Construction Contracts, and the relevant interpretations. The standard provides a single model for determining whether an entity recognizes revenue in accordance with the method, timing and amount by applying the five-step mode.

(a) Sales of goods

The Group recognized revenue when delivered goods to customer’s designated place, customer accepted the goods and the significant risks and rewards already transferred to customers. The Group recognized revenue at this stage was because revenue and cost can be measured reliably, amount can be high possiblely collected and the Groupd no long engaged in the management of the goods.

Under IFRS 15, revenue will be recognized when a customer obtains control of the goods. The Group has performed a preliminary assessment when the timing of the related risks and rewards of the goods ownership transferred is similar to the timing when control transferred and the Group does not expect that there will be a significant impact on its consolidated financial statements.

(b) Transition

The Group expects to apply IFRS 15 retrospectively. Hence, each comparison period of consolidated reports will be retrospectively adjusted according to the application IFRS 15.

The Group plans to use the practical expedients for completed contracts. This means that when a contract reaches its maturity in the same comparative reporting period, and when a contract is deemed as completed contracts at the beginning of the earliest period presented, it will not be restated.

C. Amendments to IAS 7 Disclosure Initiative

The amendments require disclosures that enable users of financial statements to evaluate changes in liabilities arising from financing activities, including both changes arising from cash flow and non-cash changes.

The Group expects to provide the adjustment of initial and ending balance from liability of financing activities to meet aforementioned application.

D. Amendments to IAS 12 Recognition of Deferred Tax assets for Unrealized Loss

The amendments clarify the accounting for deferred tax assets for unrealized losses on debt instruments measured at fair value.

The Group is assessing the potential impact on its consolidated financial statements resulting from amendments. So for, the Group does not expect any significant impact.

E. IFRIC 22 Foreign Currency Transactions and Advance Consideration

The date of the transaction, for the purpose of determining the exchange rate, is the date of initial recognition of each payment or receipt date. The Group estimated the above changed in Accounting policies may change the mearsuement of advance receipt (prepaid) price but the amount needs further evaluation.

F. Amendment to IAS 40 Transfer to or from Investment Property

Clarify that Corporation can transfers to, or from, investment property only when there is a change in use with evidence to rove. The amendment emphasizes management team’s intention to change instead of evidence of change in use. It further clarified the change of evidence in use including transfer from owner-occupied property to investment property.

The Group’s initial evaluation of above accounting policy change won’t cause significant impact on its consolidated financial statements.

(3) Newly released or amended standards and interpretations not yet endorsed by the FSC

A summary of the new standards and amendments issued by the IASB but not yet endorsed by the FSC.

New, Revised or Amended Standards and Interpretations	Effective date per IASB
Amendments to IFRS 10 and IAS 28 “Sale or Contribution of Assets between an Investor and its Associate or Joint Venture”	Effective date to be determined by IASB
IFRS 16 “Lease”	January 1, 2019
IFRS 17 "Insurance Contracts"	January 1, 2021
IFRIC 23 "Uncertainty over Income Tax Treatments"	January 1, 2019

The Group is still currently determining the potential impact of the standards listed below:

Issuance/Release Dates	Standards or interpretation	Content of amendment
January 13, 2016	IFRS 16 "Leases"	The new standard of accounting for lease in amended as follows: ・For a contract that is, or contains, a lease, the lessee shall recognize a right-of-use asset and a lease liability in the balance sheet. In the statement of profit or loss and other comprehensive income, a lessee shall present interest expense on the lease liability separately from the depreciation charge for the right-of use asset during the lease term. ・A lessor classifies a lease as either a finance lease or an operating lease, and therefore, the accounting remains similar to IAS 17.

Issuance/Release Dates	Standards or interpretation	Content of amendment
June 7, 2017	IFRIC 23 "Uncertainty over Income Tax Treatments"	• The interpretation is to be applied to the determination of taxable profit (tax loss), tax bases, unused tax losses, unused tax credits and tax rates, when there is uncertainty over income tax treatmentsAn entity is to assume that a taxation authority with the right to examine any amounts reported to it will examine those amounts and will have full knowledge of all relevant information when doing so. • If the entity concludes that it is probable that a particular tax treatment is accepted, the entity has to determine taxable profit (tax loss), tax bases, unused tax losses, unused tax credits or tax rates consistently with the tax treatment included in its income tax filings.If it’s not probable that a particular tax treatment is accepted, the entity has to use the most likely amount or the expected value of the tax treatment to reflect the influence of the resolution of the uncertainty over income tax treatments.

The Group is evaluating the impact on financial position and financial performance of the initial adoption of the above mentioned standards or interpretations. The results thereof will be disclosed when the Group completes its evaluation.

(y) Financial instruments

There was no significant change of the Group's fair value of financial instruments, exposure to credit risk, liquidity risk and market risk except below statements. Please refer to Note 6(y) of 2016 consolidated financial statements.

(i) Credit risk

1. Exposure to credit risk

The Group's maximum exposure to credit risk was the carrying amount of financial assets.

2. Concentration of credit risk

The Group has vast customers and does not concentrate its business with one customer. In order to reduce credit risk of account receivables, the Group will consecutively evaluate the financial status of each customer and will request customer to prepay if necessary. The Group has no significant concentration of its accounts receivable as of June 30, 2017, December 31, 2016 and June 30, 2016

(ii) Liquidity risk

Details of financial liabilities categorized by due dates were as follows. The amounts include interest expenses but exclude the impacts of negotiated net amounts.

(iii) Market Risk

a. Exchange rate risk

Significant financial assets and liabilities exposed to foreign currency risk were as follows:

	2017.6.30			2016.12.31			2016.6.30		
	Foreign currency	Exchange rate	TWD amount	Foreign currency	Exchange rate	TWD amount	Foreign currency	Exchange rate	TWD amount
Financial assets									
Monetary items									
USD	$ 52,351	30.42	1,592,510	46,679	32.25	1,505,389	46,680	32.275	1,506,605

Non-Monetary item									
USD	10,378	30.42	315,710	6,635	32.25	213,985	11,661	32.275	376,356
Financial Liabilities									
Monetary items									
NTD	4,951	1	4,951	-	-	-	64	1	64
USD	10,519	30.42	319,980	8,961	32.25	288,995	9,643	32.275	311,233
JPY	24,696	0.2716	6,707	22,992	0.2756	6,337	24,669	0.3143	7,754

The foreign currency risk was mainly incurred from the translation of cash and cash equivalents, accounts receivable, other receivables, available-for-sale financial assets, loans, accounts payable, bonds payable and other payables. As of June 30, 2017 and 2016, the exchange rate of the TWD versus the USD, CNY, and JPY increases or decreases by 1%, given no changes in other factors, profit after tax will increase or decrease by $10,540 and $7,438, respectively.

The Group has variety kinds of functional currencies, hence we use summarized method to disclose exchange gain or loss of monetary items. For the three months and six months ended June 30, 2017and 2016, the exchange loss and profit (including realized and unrealized) that resulted from monetary items translated to the functional currency was profit $10,834, Profit $3,217, loss $56,197and loss $7,533, respectively.

b. Interest rate risk

Please refer to liquidity risk management for the detail of the Group's financial liabilities' interest exposure.

The sensitivity analysis of interest was made based on the interest rate of derivative and non-derivative instruments at the reporting date. The analysis of liabilities bearing floating interest rates was prepared based on the assumption that the outstanding amount at the reporting date had existed for the whole year.

When internal report to the Group's top management regarding the interest rate change, they used 1% increase or decrease of interest rate assumption as the interest rate change which also represents this is the reasonable interest rate range assessed by the top management.

If interest rates on loans had increased or decreased by 1% with all other variables held constantly. The impact on the Group will be as follows:

January to June, 2017		January to June, 2016	
Increase 1%	**Decrease 1%**	**Increase 1%**	**Decrease 1%**
After-tax loss	**After-tax loss**	**After-tax profit**	**After-tax profit**
$ 38	**38**	**48**	**48**

The above-mentioned variables attribute to the Group's change of interest rate on loan.

c. Other price risk

If the prices of equity securities change at reporting date, with all other variables held constant, the influences were as follows:

	January to June, 2017		January to June, 2016	
Equity price at reporting date	**Other comprehensive income after tax**	**Net profit (loss)**	**Other comprehensive income after-tax**	**Net profit (loss)**
Increase 3%	**$ 13,047**	**-**	**15,424**	**-**
Decrease 3%	**$ (13,047)**	**-**	**(15,424)**	**-**

(iv) Fair value

b. The Group measures its assets and liabilities use input observable market data. The fair value hierarchy categorizes the inputs used in valuation techniques as follows:
- Level 1: quoted prices (unadjusted) in the active markets for identified assets or liabilities.
- Level 2: inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly (i.e., as prices) or indirectly (i.e., derived from prices).
- Level 3: inputs for the asset or liability that are not based on observable market data (unobservable inputs)..

c. Valuation techniques and assumptions unused in fair value determination

The methodology and assumptions used by the Group to estimate without using fair-value measures as follows:

For financial liabilities as measured at amortized coat, if there is a quotation for a transaction or market marker, the latest transaction price and quotation information are used as a basis for assessing the fair value; if no market balue for reference, use evaluation method to estimate. The estimate and assumptions used in the evaluation method are to estimate the fair value according to the discounted value of the cash flow. Because of the short maturities of these instruments, the Group estimates that the carrying amount is a reasonable approximation of fair value.

d. Valuation techniques and assumptions used in fair value determination

Non-derivative instruments

If a financial instrument has a quoted price in an active market, the quoted price is used as fair value. Quoted prices of major stock exchanges and quoted prices of government bonds are the basis for measuring the fair value of stocks listed on an exchange, stocks listed on the OTC, and debt instruments with quoted prices in an active market.

A financial instrument is regarded as having a quoted price in an active market if quoted prices are readily and regularly available from an exchange, dealer, broker, industry group, pricing service or regulatory agency, and if those prices represent actual and regularly occurring market transactions on an arm's-length basis. Otherwise, the market is deemed to be inactive.

The fair values of the Group's bonds, listed securities, and open-end funds with standard terms and conditions and traded in active markets were determined by the quoted market prices.

Derivative instruments

The fair value of Swap contracts is based on quoted prices from the counterparty.

e. Transfer between level 1 and level 2

There was no transfer between the fair value hierarchy levels for the six months ended June 30, 2017 and 2016.

(z) Financial risk management
