Independent Auditors' Review Report

The Board of Director's
Emerging Display Technologies Corp

Introduction

We have reviewed the accompanying consolidated balance sheets of Emerging Display Technologies Corp. (the Company) and subsidiaries as of June 30, 2019 and 2018, and the related consolidated statements of comprehensive income for the three months and the six months ended June 30, 2019 and 2018, and changes in equity and cash flows for the six months ended June 30, 2019 and 2018, and notes to the consolidated financial statements, including a summary of significant accounting policies. Management is responsible for the preparation and fair presentation of the consolidated financial statements in accordance with the Regulations Governing the Preparation of Financial Reports by Securities Issuers and International Accounting Standard 34, "Interim Financial Reporting" endorsed issued into effect and by the Financial Supervisory Commission of the Republic of China. Our responsibility is to express a conclusion on the consolidated financial statements based on our reviews.

Scope of Review

Except as explained in the Basis for Qualified Conclusion paragraph, we conducted our reviews in accordance with Statement of Auditing Standards 65, "Review of Financial Information Performed by the Independent Auditor of the Entity". A review of the consolidated financial statements consists of making inquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. A review is substantially less in scope than an audit conducted in accordance with the generally accepted auditing standards and consequently does not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly, we do not express an audit opinion.

Basis for Qualified Conclusion

As stated in Note 4(b), the consolidated financial statements included the financial statements of certain nonsignificant subsidiaries, which were not reviewed by independent accountants. These financial statements reflect total assets amounting to \$268,783 thousand and \$291,321 thousand, constituting 7.96% and 9.18% of consolidated total assets as of June 30, 2019 and 2018, respectively, total liabilities amounting to \$77,951 thousand and \$78,172 thousand, constituting 5.09% and 5.78% of consolidated total liabilities as of June 30, 2019 and 2018, respectively, and total comprehensive income amounting to \$13,350 thousand, \$4,445 thousand, \$11,732 thousand and \$2,556 thousand, constituting 8.8%, 7.2%, 7.11% and 5.07% of consolidated total comprehensive income for the three months and the six months ended June 30, 2019 and 2018, respectively.

Qualified Conclusion

Based on our reviews, except for the effects of the adjustments, if any, as might have been determined to be necessary had the financial statements of certain consolidated subsidiaries and equity accounted investee companies described in the Basis for Qualified Conclusion paragraph above been reviewed by independent accountants, nothing has come to our attention that causes us to believe that the accompanying consolidated financial statements do not present fairly, in all material respects, the consolidated financial position of the Emerging Display Technologies Corp. and subsidiaries as of June 30, 2019 and 2018, and of its consolidated financial performance and its consolidated cash flows for the six months ended June 30, 2019 and 2018 in accordance with the Regulations Governing the Preparation of Financial Reports by Securities Issuers and International Accounting Standard 34, “Interim Financial Reporting” endorsed by the Financial Supervisory Commission of the Republic of China.

The engagement partners on the audit resulting in this independent auditors’ review report are Po Jen, Yang and Yen Ta, Su

Notes to Readers

The accompanying consolidated financial statements are intended only to present the statement of financial position, financial performance and cash flows in accordance with the accounting principles and practices generally accepted in the Republic of China and not those of any other jurisdictions. The standards, procedures and practices to audit such consolidated financial statements are those generally accepted and applied in the Republic of China.

The independent auditors’ review report and the accompanying consolidated financial statements are the English translation of the Chinese version prepared and used in the Republic of China. If there is any conflict between, or any difference in the interpretation of the English and Chinese language independent auditors’ review report and consolidated financial statements, the Chinese version shall prevail.

For the six months ended June 30, 2019 and 2018

(All amounts expressed in thousands of New Taiwan dollars, unless otherwise specified)

(Reviewed, not audited)

(1) Organization and Business Scope

Emerging Display Technologies Corp. (the Company) and its subsidiaries was incorporated as a limited liability Group under the laws of the Republic of China (ROC) on September 23, 1994. The address of its registered office and principal place of business is No.5, Central 1st Rd, Kaohsiung Economic Processing Zone, Kaohsiung City, Taiwan. The Consolidated financial statements comprise Emerging Display Technologies Corp. and its subsidiaries (jointly referred to as the Group). The Group is engaged in the manufacture and sale of Capacity Touch Panel and liquid crystal displays (LCDs).

(2) Financial Statements Authorization Date and Authorization Process

The consolidated financial statements were authorized for issuance by the Board of Directors on August 6, 2019.

(3) Application of New and Revised International Financial Reporting Standards and Interpretations

- (a) The impact of new and revised International Financial Reporting Standards and Interpretations endorsed by the Financial Supervisory Commission, R.O.C. ("FSC")

The following new standards, interpretations and amendments have been endorsed by the FSC and are effective for annual periods beginning on or after January 1, 2019 :

<u>New, Revised or Amended Standards and Interpretations</u>	<u>Effective date per IASB</u>
IFRS 16 "Leases"	January 1, 2019
IFRIC 23 "Uncertainty over Income Tax Treatments"	January 1, 2019
Amendments to IFRS 9 "Prepayment Features with Negative Compensation"	January 1, 2019
Amendments to IAS 19 "Plan Amendment, Curtailment or Settlement"	January 1, 2019
Amendments to IAS 28 "Long-term Interests in Associates and Joint Ventures"	January 1, 2019
Annual Improvements to IFRS Standards 2015–2017 Cycle	January 1, 2019

Except for the following items, the Group believes that the adoption of the above IFRSs would not have any material impact on its consolidated financial statements. The extent and impact of signification changes are as follows :

IFRS 16 "Leases"

IFRS 16 "Leases" replaces the existing leases guidance, including IAS 17 "Leases", IFRIC 4 "Determining whether an Arrangement contains a Lease", SIC-15 "Operating Leases – Incentives" and SIC-27 "Evaluating the Substance of Transactions Involving the Legal Form of a Lease".

EMERGING DISPLAY TECHNOLOGIES CORP. AND SUBSIDIARIES

Notes to consolidated financial statements

The Group applied IFRS 16 using the modified retrospective approach, and the details of the changes in accounting policies are disclosed below :

(i) Definition of a lease

Previously, the Group determined at contract inception whether an arrangement is or contains a lease under IFRIC 4. Under IFRS 16, the Group assesses whether a contract is or contains a lease based on the definition of a lease, as explained in Note 4(c).

On transition to IFRS 16, the Group elected to apply the practical expedient to grandfather the assessment of which transactions are leases. The Group applied IFRS 16 only to contracts that were previously identified as leases. Contracts that were not identified as leases under IAS 17 and IFRIC 4 were not reassessed for whether there is a lease. Therefore, the definition of a lease under IFRS 16 was applied only to contracts entered into or changed on or after January 1, 2019.

(ii) As a lessee

As a lessee, the Group previously classified leases as operating or finance leases based on its assessment of whether the lease transferred significantly all of the risks and rewards incidental to ownership of the underlying assets to the Group. Under IFRS 16, the Group recognizes right-of-use assets and lease liabilities for most leases-i.e. These leases are on-balance sheet.

The Group had chosen to apply the exemption of the short-term lease for the leased machines and equipment.

Leases classified as operating leases under IAS 17

At transition, lease liabilities were measured at the present value of the remaining lease payments, discounted at the Group's incremental borrowing rate as of January 1, 2019. Right-of-use assets are measured at an amount equal to the lease liability, adjusted by the amount of any prepaid or accrued lease payments.

In addition, the Group used the following practical expedients when applying IFRS 16 to leases :

- 1) Applied a single discount rate to a portfolio of leases with similar characteristics.
- 2) Adjusted the right-of-use assets by the amount of IAS 37 onerous contract provision immediately before the date of initial application, as an alternative to an impairment review.
- 3) Applied the exemption not to recognize the right-of-use assets and lease liabilities that ends within 12 months of the date of initial application.
- 4) Excluded the initial direct costs from measuring the right-of-use assets at the date of initial application.
- 5) Used hindsight when determining the lease term if the contract contains options to extend or terminate the lease.

(iii) Impacts on financial statements

On transition to IFRS 16, the Group recognized additional \$90,510 of both right-of-use assets and lease liabilities. When measuring lease liabilities, the Group discounted lease payments using its incremental borrowing rate at January 1, 2019. The weighted-average rate applied is 3.8073%.

EMERGING DISPLAY TECHNOLOGIES CORP. AND SUBSIDIARIES

Notes to consolidated financial statements

The amount of the operating lease commitments disclosed in the previous year prior to the initial application date and the amount of the lease liability recognized on the initial application date are adjusted as follows :

	January 1,2019
Operating lease commitment at December 31,2018 as disclosed in the Group's consolidated financial statements	\$ 50,292
Extension and termination options reasonably certain to be exercised	78,912
	\$ 129,204
Lease liability recognized on January 1, 2019	\$ 90,510

(b) The impact of IFRS endorsed by the FSC but not yet effective

The following new standards, interpretations and amendments have been endorsed by the FSC and are effective for annual periods beginning on or after January 1,2020 in accordance with Ruling No.1080323028 issued by the FSC on July 29, 2019 :

New, Revised or Amended Standards and Interpretations	Effective date per IASB
Amendments to IFRS 3 “Definition of a Business”	January 1, 2020
Amendments to IAS 1 and IAS 8 “Definition of Material”	January 1, 2020

Except for the following items, the Group believes that the adoption of the above IFRSs would not have any material impact on its consolidated financial statements. The extent and impact of signification changes are as follows :

Amendments to IAS 1 and IAS 8 “Definition of Material”

The amendments clarify the definition of material and how it should be applied by including in the definition guidance that until now has featured elsewhere in IFRS standards. In addition, the explanations accompanying the definition have been improved. Finally, the amendments ensure that the definition of material is consistent across all IFRS Standards. The Group is evaluating the impact on its financial position and financial performance upon its initial adoption of the above mentioned standards or interpretations.

(c) Newly released or amended standards and interpretations not yet endorsed by the FSC

A summary of the new standards and amendments issued by the IASB but have yet to be endorsed by the FSC :

New, Revised or Amended Standards and Interpretations	Effective date per IASB
Amendments to IFRS 10 and IAS 28 Sale or Contribution of Assets Between an Investor and Its Associate or Joint Venture	Effective date to be determined by IASB
IFRS 17 Insurance Contracts	January 1, 2021

The abovementioned new standards and amendments issued by the IASB but not yet endorsed by the FSC will not have any material impact to the Group.

(c) Leases (applicable from January 1,2019)

(i) Identifying a lease

At inception of a contract, the Group assesses whether a contract is, or contains, a lease. A contract is, or contains, a lease if the contract conveys the right to control the use of an identified asset for a period of time in exchange for consideration. To assess whether a contract conveys the right to control the use of an identified asset, the Group assesses whether :

- 1) the contract involves the use of an identified asset-this may be specified explicitly or implicitly, and should be physically distinct or represent substantially all of the capacity of a physically distinct asset. If the supplier has a substantive substitution right, then the asset is not identified ; and
- 2) the Group has the right to obtain substantially all of the economic benefits from use of the asset throughout the period of use ; and
- 3) the Group has the right to direct the use of the asset if either :
 - the Group has the right to direct the use of the identified asset when it has the decision-making rights that are most relevant to the changes on how and for what purpose the asset is used throughout the period.
 - the decision on how and for what purpose, the asset is used is predetermined :
 - the Group has the right to operate the asset and the providers do not have the right to vary ;
 - or
 - the Group designed the asset in a way that predetermines how and for what purpose, it will be used.

At inception or on reassessment of a contract that contains a lease component, the Group allocates the consideration in the contract to each lease component on the basis of their relative stand-alone prices. However, at the time of lease of land and construction, the Group chooses to treat the lease component and the non-lease component as part of a single lease without distinguishing between non-lease components.

(ii) As a lessee

The Group recognizes a right-of-use asset and a lease liability at the lease commencement date. The right-of-use asset is initially measured at cost, which comprises the initial amount of the lease liability adjusted for any lease payments made at or before the commencement date, plus any initial direct costs incurred and an estimate of costs to dismantle and remove the underlying asset or to restore the underlying asset or the site on which it is located, less any lease incentives received.

The right-of-use asset is subsequently depreciated using the straight-line method from the commencement date to the earlier of the end of the useful life of the right-of-use asset or the end of the lease term. In addition, the right-of-use asset is periodically reduced by impairment losses, if any, and adjusted for certain remeasurements of the lease liability.

The lease liability is initially measured at the present value of the lease payments that are not paid at the commencement date, discounted using the interest rate implicit in the lease or, if that rate cannot be reliably determined, the Group's incremental borrowing rate. Generally, the Group uses its incremental borrowing rate as the discount rate.

EMERGING DISPLAY TECHNOLOGIES CORP. AND SUBSIDIARIES

Notes to consolidated financial statements

Lease payments included in the measurement of the lease liability comprise the following :

- 1) Fixed payments, including in-substance fixed payments ;
- 2) Variable lease payments that depend on an index or a rate, initially measured using the index or rate as at the commencement date ;
- 3) Amounts expected to be payable under a residual value guarantee ; and
- 4) Payments or penalties for purchase or termination options that are reasonably certain to be exercised.

The lease liability is measured at amortized cost using the effective interest method. It is remeasured when :

- 1) there is a change in future lease payments arising from the change in an index or rate ;
- 2) there is a change in the Group's estimate of the amount expected to be payable under a residual value guarantee ;
- 3) there is a change in the assessment regarding the purchase options ;
- 4) there is a change of its assessment on whether it will exercise an extension or termination option ;
- 5) there is any lease modifications in lease subject, scope of the lease or other terms

When the lease liability is remeasured, other than lease modifications, a corresponding adjustment is made to the carrying amount of the right-of-use asset, or in profit and loss if the carrying amount of the right-of-use asset has been reduced to zero.

When the lease liability is remeasured to reflect the partial or full termination of the lease for lease modifications that decrease the scope of the lease, the Group accounts for the remeasurement of the lease liability by decreasing the carrying amount of there right-of-use asset to reflect the partial or full termination of the lease, and recognize in profit or loss any gain or loss relating to the partial or full termination of the lease.

The Group presents right-of-use assets and lease liabilities that do not meet the definition of investment as a separate line item respectively in the balance sheets.

For short-term lease of office equipment and low-value underlying asset lease, the Group chooses not to recognize the right-of-use asset and lease liability, and the related lease payments are recognized as expenses on a straight-line method over the lease term.

(d) **Income tax**

The Group prepared income tax in conforming with interim income tax measurement and disclosure of paragraph B12 of IAS 34 "Interim Financial Reporting".

Income tax expense is calculated based on an interim period's pre-tax income multiplied by best estimation of the annual income tax rate expected for the full financial year and recognized as current income tax expense. Current income tax expense and deferred tax expense are recognized based on the prorated estimated annual current income tax expense and deferred tax.

When income tax rate changes occur in interim period, the effect on deferred income tax is recognized in the period at once.

Income tax expense is directly recognized in equity items or other comprehensive items which is the temporary difference between book value of assets and liabilities at reporting date and tax basis to measure by using appropriate tax of expected realize assets and settle the liabilities.

EMERGING DISPLAY TECHNOLOGIES CORP. AND SUBSIDIARIES

Notes to consolidated financial statements

(e) **Employee benefit**

Interim defined benefit pension is calculated on a year-to-date basis using the actuarially determined pension cost rate adjusted for significant market fluctuations, curtailments, settlement or other one-time events.

(5) **Critical Accounting Judgement and Key Sources of Estimation and Uncertainty**

Management team prepared quarterly consolidated financial statements in conforming with IAS 34, “Interim Financial Reporting,” and make judgement, estimation and assumption and the reporting amount will be affected by accounting policies, assets, liabilities, revenue and expense. The actual outcome might be different from the estimation.

Except as described below, in preparing the consolidated financial statements, critical accounting judgments and key sources of estimation uncertainty used by management in the application of accounting policies are consistent with those described in note 5 of the consolidated financial statements for the year ended December 31, 2018.

The Group has estimated the loss allowance of receivables that is based on the risk of a default occurring and the rate of expected credit loss. The Group has considered historical experience, current economic conditions and forward-looking information at the reporting date to determine the assumptions to be used in calculating the impairments and the selected inputs. The relevant assumptions and input values, please refer to note 6(d).

(6) **Explanation of significant accounting items**

The explanation of significant accounting items of this quarterly consolidated financial statements had no significant difference compared with the Group consolidated financial statements for the year ended December 31, 2018. Please refer to Note 6 of 2018 consolidated financial statements.

EMERGING DISPLAY TECHNOLOGIES CORP. AND SUBSIDIARIES

Notes to consolidated financial statements

For the purpose of increasing investment profits, the Group entrusts partial listed companies as the beneficiary. According to the terms of the contract, the Group does not transfer risk and remuneration of these financial assets, and they had not been derecognized. As of June 30, 2019 and 2018, the carrying amount of the listed stocks which were entrusted to financial institutions for security lending amounted to \$34,408 and \$27,811, respectively.

(i) Lease of land, Building and construction

As of June 30, 2019, the Group leases land and buildings for its office use. The leases of land and buildings run for approximately 2 to 10 years, and the lease period of office premises is usually 2 to 3 years. Part of the lease includes an option to extend the same period of the original contract at the end of the lease term.

Lease payments for certain contracts are subject to changes in the local price index, which usually occur once a year.

The lease agreements for some of the equipments include the option to extend the lease or terminate the lease, which are managed separately by each region, and therefore the individual terms and conditions agreed upon are different within the Group. These options are only for the Group to have enforceable rights and the lessor does not have this right. In the event that it is not possible to reasonably determined the period of the extended lease that will be exercisable, the related payments over the period covered by the option are not included in the lease liability.

Notes to consolidated financial statements

The amount of revenue recognized for the three months and six months ended June 30, 2019 and 2018, that was included in the contract liability balance at the beginning of the period were \$16, \$870, \$1,577 and \$6,820 respectively.

(u) Employee compensation, and directors' and supervisors' remuneration

According to the Company's articles of association, the Company should contribute no less than 5% of the profit as employee compensation and a maximum of 3% as directors' and supervisors' remuneration when there is profit for the year. However, certain amounts of the earnings should be reserved if there is an accumulated loss from operations in previous years in advance of the appropriation of the employee bonuses. The aforementioned employee bonuses will be distributed in cash or stock to employees who satisfy certain specifications of the Group and its affiliates.

	April to June, 2019	April to June, 2018	January to June, 2019	January to June, 2018
Employee compensation	\$ 5,233	2,506	8,604	2,506
Directors' and supervisors' remuneration	\$ 3,140	1,504	5,163	1,504

The abovementioned compensation of employees and remuneration of Director's and supervisors' were estimated as the Company's net income before tax, excluding compensation of employees and remuneration of Directors' and supervisors', multiplied by the appropriate percentage in compliance with the Company's article. These expenses were recognized in operating costs and operation expensed for the respective period. In case the variances between actual and estimated expenses occur during next year, the variances concerned will be recognized in next year's profit. If the Company's Board of Directors resolve to issue its stocks as the compensation of employees, it will be calculated as per the closing price of its stock on the day before the Board of Directors.

The accrued compensation of employees amounted to \$6,704 and \$3,476 for 2018 and 2017, respectively, and the accrued remuneration of directors' and supervisor's amounted to \$4,023 and \$2,086 respectively. Actual distribution had no difference with accrued amounts. The previous distribution of compensation to employees, remuneration of directors and supervisors approved by Board of Directors for related information, please go to website:

<u>Non-monetary items</u>									
USD	18	31.06	574	-	-	-	-	-	-

The foreign currency risk was mainly incurred from the translation of cash and cash equivalents, accounts receivable, other receivables, financial assets at fair value through profit or loss, accounts payable, and other payables. As of June, 2019 and 2018, the exchange rate of the TWD versus the USD, CNY, JPY, and EUR increases or decreases by 1%, given no changes in other factors, profit after tax will increase or decrease by \$10,200 and \$10,009, respectively. The analysis assumes that all other variables remain constant.

The Group has variety kinds of functional currencies, hence we use summarized method to disclose exchange gain or loss of monetary items. For the three months and the six months ended June 30, 2019 and 2018, the exchange gains or loss (including realized and unrealized) that resulted from monetary items translated to the functional currency was \$11,650, \$58,727, \$17,252 and \$29,372, respectively.

2. Interest rate analysis

Please refer to liquidity risk management for the detail of the Group's financial liabilities' interest exposure.

The sensitivity analysis of interest was made based on the interest rate of derivative and non-derivative instruments at the reporting date. The analysis of liabilities bearing floating interest rates was prepared based on the assumption that the outstanding amount at the reporting date had existed for the whole year.

When internal report to the Group's top management regarding the interest rate change, they use 1% increase or decrease of interest rate assumption as the interest rate change which also represents this is the reasonable interest rate range assessed by the top management.

EMERGING DISPLAY TECHNOLOGIES CORP. AND SUBSIDIARIES

Notes to consolidated financial statements

If interest rates on loans had increased or decreased by 1% with all other variables held constantly. The impact on the Group will be as follows :

January to June, 2019		January to June, 2018	
Increase 1%	Decrease 1%	Increase 1%	Decrease 1%
After-tax profit	After-tax profit	After-tax loss	After-tax loss
\$ 35	35	40	40

The above-mentioned variables attribute to the Group's change of interest rate on loan.

3. Other price risk

If the prices of financial instrument change at reporting date, with all other variables held constant, the influences were as follows :

Equity price at reporting date	January to June, 2019		January to June, 2018	
	Other comprehensive income after tax	Net profit (loss)	Other comprehensive income after tax	Net profit (loss)
Increase 3%	\$ 4,836	1,345	10,491	3,200
Decrease 3%	\$ (4,836)	(1,345)	(10,491)	(3,200)

(iv) Fair value

1. Categories and fair values of financial instruments

The fair value of financial assets and liabilities at fair value through profit or loss, and financial assets at fair value through other comprehensive income, are measured on a recurring basis.

The following table shows the carrying amount and fair value of financial assets and financial liabilities, including their levels in the fair value hierarchy. It does not include fair value information on financial assets and financial liabilities not measured at fair value if the carrying amount is a reasonable approximation of fair value and on investments in equity instruments which do not have any quoted price in an active market and lease liability.

2. Valuation techniques and assumptions unused in fair value determination

The methodology and assumptions used by the Group to estimate without using fair-value measures, because of the short maturities of these instruments, the Group estimates that the carrying amount is a reasonable approximation of fair value.

3. Valuation techniques and assumptions used in fair value determination

Non-derivative instruments

If a financial instrument has a quoted price in an active market, the quoted price is used as fair value. Quoted prices of major stock exchanges and quoted prices of government bonds are the basis for measuring the fair value of stocks listed on an exchange, stocks listed on the OTC, and debt instruments with quoted prices in an active market.

EMERGING DISPLAY TECHNOLOGIES CORP. AND SUBSIDIARIES

Notes to consolidated financial statements

The fair values of listed securities and open-end funds with standard terms and conditions and traded in active markets held by the Group are determined by the quoted market prices.

Measurements of fair value of financial instruments without active market are based on valuation technique or quoted price from counterparty. Fair value measured by valuation technique can be extrapolated from similar financial instruments, discounted cash flow method or other valuation technique. Using discounted cash flow method to calculate fair value, the main assumption is to reflect monetary time value and return of invest risk to discount and measure based on investee's estimated future cash flow.

Derivative instruments

The fair value of Swap contracts is based on quoted prices from the counterparty.

4. Transfer between level 1 and level 2

There was no transfer between the fair value hierarchy levels for the six months ended June 30, 2019 and 2018.

5. Movement of financial assets through other comprehensive income categorized within Level 3.

		Financial assets at fair value through other comprehensive income
		Unquoted equity instruments
Balance at January 1, 2019	\$	151,668
Prepaid investment		2,700

Recognized in other comprehensive income		10,360
Balance at June 30, 2018	\$	158,960

6. Quantified information on significant unobservable inputs (Level 3) used in fair value measurement

The Group's financial instruments that use Level 3 inputs to measure fair value include financial assets measured at fair value through other comprehensive income— equity investments.

The Group's equity investments without active market in Level 3 have more than one significant unobservable input. The significant unobservable inputs of equity investments without active market are individually independent, and there is no correlation between them.

The Group's major equity investment without active market—CHENFENG OPTRONICS CORPORATION's quantified information of significant unobservable inputs was as follows :

EMERGING DISPLAY TECHNOLOGIES CORP. AND SUBSIDIARIES

Notes to consolidated financial statements

Item	Valuation technique	Significant unobservable inputs	Inter-relationship between significant unobservable inputs and fair value measurement
Financial assets at FVOCI - equity investments without an active market	Discounted Cash Flow Method	<ul style="list-style-type: none"> • Continuing growth rate (as of June 30,2019, December 31,2018 and June 30, 2018 ranged from 2.14%、1.96% and 1.7% respectively) • Weighted average cost of capital (as of June 30,2019, December 31,2018 and June 30, 2018 ranged from 11.4%、11.82% and 9.57% respectively) • Market illiquidity discount rate (as of June 30,2019, December 31,2018 and June 30, 2018 ranged from 42.85%、38.36% and 42.10% respectively) • Non-controlling interests discount rate (as of June 30,2019, December 31,2018 and June 30, 2018 were 29.87%) 	<ul style="list-style-type: none"> • If the continuing growth rate was higher, the estimated fair value would increase. • If WACC, non-controlling interests discount, and illiquidity discount were higher, the estimated fair value would decrease. • If the market illiquidity discount was higher, the estimated fair value would decrease. • If the multiplier and control premium were higher, the estimated fair value would increase.

7. Fair value measurements in Level 3 – sensitivity analysis of reasonably possible alternative assumptions

The Group's measurement on the fair value of financial instruments is deemed reasonable despite different valuation models or assumptions may lead to different results.

For fair value measurements in Level 3, changing one or more of the assumptions would have the following effects on other comprehensive income :

Inputs	Fluctuation in inputs	Changes in fair value reflected in OCI	
		Favorable	Unfavorable
June 30, 2019			
Continuing growth rate 2.14%	0.1%	\$ 1,680	1,610
