Emerging Display Technologies Corp. 2017 Business Report

Dear Shareholders,

First and foremost, I would like to thank you for taking time from your busy schedule to attend this shareholders' meeting. On behalf of **edt**, I would like to express my upmost appreciation for your support and encouragement.

The results of our operating performance in 2017 and outlook for the future are as following:

2017 Business Report

1. Operating Performance

Though consolidated net operating revenue in 2017 totaled NT\$3,005,136 thousand has a decrease of 5.47% under NT\$3,178,919 thousand in 2016, overall gross profit has maintained the performance due to the effects of continuing proportional increase in product portfolio combining Capacitive Touch Panel (CTP) and Thin Film Transistor Liquid Crystal Display (TFT). Due to the unfavorable exchange rates, the consolidated net income was decreased to NT\$55,571 thousand and earnings per share were NT\$0.33.

LCD panels and modules make up around 70% of total sales. Because of increased demand from individual clients, Capacitive Touch Panel (CTP) make up more than 30% of sold amount and this has a positive effect on long-term set profit growth and effective capacity utilization.

Looking back on the past year, although there were still many unfavorable macro-environmental elements and the Capacitive Touch Panel (CTP) industry has entered a mature low margin stage, we continued to enhance and improve the touch function of Capacitive Touch Panel (CTP) for diverse small niche markets to service the market demand of various emerging applications that accompany the growth of the "Internet of Things" and expect to achieve stable profit growth.

The diverse development of capacitive touch function will deepen with the growth of emerging application markets. Encouraged by the improvement of various wireless information transmission technologies and medium-high end mobile computing products, simple and intuitive user interface design will become the mainstream for interactive information display control. Innovation in projected capacitive technology still awaits the touch panel industry to research and develop.

In the competitive environment of the diversified customized demand market, **edt** has always corresponded material application and software design with manufacturing process innovation, implemented professional and technical services, and is committed to the improvement of production yield rate and efficiency as well as effective operating cost control. Holding up to the support of our shareholders, we facilitate the best allocation of company resources and strive to achieve the set operating goals.

2. Consolidated financial results & profitability analysis

Unit: NT\$ thousands

	2017	2016
Operating profit	104,516	184,395
Non-operating income and expenses	(37,308)	31,589
Profit before tax	67,208	215,984
Net profit	55,571	187,846
Return on assets	1.85%	5.48%
Return on shareholders' equity	2.81%	9.04%
Pre-tax income to paid-in capital	3.66%	11.08%
Profit ratio	1.85%	5.91%
Earnings per share (NT\$)	0.33	1.03

3. Research and development Status

- (1) From the establishment of **edt**, the research and development of new technology has been highly valued. We spare no effort in improving product quality and developing new varieties. Research and development results of 2017 are as following:

Item	R&D Results	Description of Benefits
1	Large Size GGG CTP Development by FMM Technology (21.5"~27")	Introduce new technology of Fine Metal Mask (FMM) and collaborate with laser etching to develop by new dry process. At present, 21.5" GGG products have been developed.
2	DITO Structure Touch Panel Development by FMM Technology	Introduce new technology of Fine Metal Mask (FMM) and collaborate with laser etching to develop DITO CTP products by new dry process. At present, 7" DITO CTP products have been developed.
3	Narrow Border / Bezel-less CTP Development	Through Glass Via(TGV) and Through Film Via(TFV) are meant to drill hole on substrate and fill the paste in hole so as to conduct circuit between top side and backside, which can reduce the trace area to reach the narrow border. Drilling hole by laser can attain 50 μm diameter and the paste is screen-printed by Ag material.
4	ECD (Electrochromic Device) Development	Our Electrochromic Device(ECD) is made by entirely solid and inorganic materials. It is able to switch between a transparent ("bleached") state and a colored state when a voltage is applied. These devices can be applied to glare attenuation in automobile rearview mirrors. At present, 10.1" ECD product have been developed.

5	Microchip maXTouch Solution Development	We have been trained by Microchip to be the Microchip module partner. Now we have several projects including 4.3", 4.8" and 7", which are in development.
6	Gesture Recognition Technology Development	Develop 3D gesture technology with TI IC (FDC2214). Now we have made some easy gestures, and will develop more and better gestures in the near future.
7	3D Holographic Projection System with Touch-Gesture and Multi-view Functionality	Integrate 3D gesture functionality with 3D holographic projection system. Now we can operate 3D holographic projection system by using gestures to control static pictures and video operation.
8	Embedded Display Product	Our smart embedded solution is using the MCU system to combine the TFT-LCD and CTP to develop edt's product. We had complete three type embedded product including 4.3", 7" and 10.1".
9	Patent Application	Number of patent proposals totaled 11. Number of patent grants totaled 14 (proposals accumulated in the previous years).

(2) Research and Development Focus in the future

In response to the vast market of increasingly popular interaction displays, we plan on investing NT\$102,330 thousand into research and development in 2018. In addition to sparing no effort in the research and development of existing areas, we are also quite prepared for new application related software / hardware technologies, such as touch function, somatosensory technology, and embedded system software. Research and development plans for 2018 are as follows:

- ◆ High Sensitive PolyTouch Sensor (GGGxPolyTouch)
- ◆ LCM Backlight with Quantum Dots(QDs) Enhancement Film Technology Development
- ◆ Transparence Display with ECD (Electrochromic Device) Development
- ◆ Guest-Host(GH) LCD Device Development (Flexible Liquid-Crystal Display)
- ◆ Microchip maXTouch Solution Development
- ◆ Gesture Recognition Technology Development
- ◆ 3D Holographic Projection System with Touch-Gesture and Multi-view Functionality
- ◆ Embedded Display Product

Summary of Business Plan for 2018

1. Business objectives

- (1) Develop new technologies and products to expand market.
 - ① Enhance touch fuction of CTP.
 - ② Develop product / technology of somatosensory application.
 - ③ Develop product / technology of ECD.

- (2) Develop effective business model for CTP+TFT module.
 - ① Optimization of optical bonding process.
 - ② Develop embedded display solution.
- (3) Utilize knowledge management and construct intelligent factory.
 - ① Enhance the management ability of quality indicators through PLM platform.
 - ② Lean production of MES.
 - ③ Lean production of APS.
- (4) Enhance efficacy of research and development.
 - ① Raise the quality and quantity of internal research report.
 - ② Develop the ability of independent designing software / firmware.

2. Expected sales numbers and its basis

- (1) Expected sales numbers for 2018:
 With the rise of global economy, the sales numbers for 2018 is expected to be:

① STN module	4,200 thousand units
② TFT module	2,400 thousand units
③ Capacitive Touch Panel	900 thousand units
- (2) Basis for expected sales numbers of 2018:
 - ① With the emerging trend of various pan-intelligent products, applications for internet of things, and wearable devices, the future market demand and application of touch panels will continue to grow.
 - ② The considerable growth potential for small and medium size TFT panels in consumer and pan-industrial electronic products can drive up the sale of TFT modules.
 - ③ Integrated touch display design has become the mainstream gradually with various application market and the customization requirements are relatively high. We believe that there will be a yearly double-digit growth for solutions of touch function combined with display panel.

3. Key sales strategies

- (1) Continuous technological development of the CTP manufacturing process and its material, as well as lamination technology of related touch sensors and display panels.
- (2) Actively develop new high added value products and markets, such as large size products and small and medium size embedded displays.
- (3) Research and develop curved surface touch technology for bonding curved glass and film or glass sensor, full lamination technology of display LCD and touch panel modules, and improvement of production yield rate.

Future Development Strategies

1. Focus on the innovative technology development of Capacitive Touch Panel (CTP) and continuous proportional increase of Capacitive Touch Panel products.
2. Enhance TFT LCD design ability, actively seek out sales orders for TFT, and satisfy the different needs of clients.
3. Continuously enhance design development of pan-industrial control application products to maintain future growth and profitability. Develop embedded system solution, assist the customer in integrated software, firmware and hardware design, and further differentiate and provide high value-added.
4. Actively build IP strategies and invest in research and development to extend into futuristic product technology and seize prior opportunity into high margin markets.
5. Improve the service quality for major clients via the technical service function of overseas channels.

The Impact of the External Competitive Environment, Regulatory Environment and Macroeconomic Conditions

1. In response to EU RoHS and REACH regulations as well as consideration of environmental climate change caused by the greenhouse effect, we will actively work with supplies and vendors in corresponding managerial activities that save energy and reduce carbon emission to comply with environmental trends and enhance product competitiveness.
2. Due to industry characteristics and the overall environment, the average selling price is declining gradually and is bound to affect the increase of gross margin. We will seek continuous growth in revenue and profit through product re-organization, manufacturing process improvement and more efficient supply chain management.
3. Over 90% of total operating revenue of **edt** is export in 2017. Since exchange rate fluctuations have a significant impact on us, efficient and stable financial operations will be used for risk aversion.

With dedication to becoming the leading brand with the most complete solutions of small and medium size interaction displays, **edt** stride to hold up to shareholders' expectations and achieve the basis for sustainability and stable development.

Independent Auditors' Report

To the Board of Directors of Emerging Display Technologies Corp.:

Opinion

We have audited the financial statements of Emerging Display Technologies Corp. (“the Company”), which comprise the balance sheets as of December 31, 2017 and 2016, the statements of comprehensive income, changes in equity and cash flows for the years ended December 31, 2017 and 2016, and notes to the financial statements, including a summary of significant accounting policies.

In our opinion, the accompanying financial statements present fairly, in all material respects, the financial position of the Company as at December 31, 2017 and 2016, and its financial performance and its cash flows for the years then ended in accordance with the Regulations Governing the Preparation of Financial Reports by Securities Issuers.

Basis for Opinion

We conducted our audit in accordance with the Regulations Governing Auditing and Certification of Financial Statements by Certified Public Accountants and the auditing standards generally accepted in the Republic of China. Our responsibilities under those standards are further described in the Auditors' Responsibilities for the Audit of the Financial Statements section of our report. We are independent of the Company in accordance with the Certified Public Accountants Code of Professional Ethics in Republic of China (“the Code”), and we have fulfilled our other ethical responsibilities in accordance with the Code. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis of our opinion.

Key Audit Matters

Key audit matters are those matters that, in our professional judgment, were of most significance in our audit of the financial statements of the current period. These matters were addressed in the context of our audit of the financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters. The key audit matters we judged shall be presented in the financial report as follows:

1. Valuation of inventory

Please refer to Note 4(g) Inventories and Note 5(b) of the financial statements for inventories and accounting estimate of inventory valuation, respectively. Information regarding the inventory is shown in Note 6(g) of the financial statements.

Description of key audit matters:

Inventory is carried at the lower of cost and net realizable value. Net realizable value is the estimated selling price in the ordinary course of business, less the estimated costs of completion and selling expenses. The Company is engaged in the manufacture and sale of liquid crystal displays and capacity touch panels. The Company focuses on the small and medium sized niche markets of non consumable area. The products are used in industrial equipment, smart home devices, handheld devices, and information appliance products. The development strategy of the Company is focused on diversified and customized product. The impact to assess provision includes the purchasing and write down of the components which are used in diversified and customized products, the management of safety stocks levels, and production planning which effects the inventory cost. As a result there is a risk that the net realizable value of inventory falls below its carrying value. Therefore this is one of the key areas our audit focused on.

How the matter was addressed in our audit:

In relation to the key audit matter above, our principal audit procedures included selecting samples to test the accuracy of inventory aging report; analyzing the changes of inventory aging; assessing the reasonableness of the accounting policy (such as the provision of inventory valuation and obsolescence), assessing the reasonableness of the provision of inventory by reviewing the historical accuracy on provision, and understanding the basis of selling price used by the management for evaluating the reasonableness of the net realizable value. Moreover, assessing the changes of obsolescence inventory in the subsequent events, and the basis of net realizable value to evaluate the accuracy of the Company's provisions. In addition, assessing the appropriateness of the provisions and disclosures made by the management.

2. Valuation of receivable

Please refer to Note 4(f) and Note 5(a) of the financial statement for receivable and accounting estimate of receivable valuation, respectively. Information regarding the account receivable is shown in Note 6 (f) of the financial statement.

Description of key audit matters:

The Company's customers are the manufacturers of industrial equipment, smart home devices, handheld devices, and information appliance product. The cause of some customers delayed payment was there is a need to clarify the responsibility of problematic products that resulted from the failure of process or usage of end product. Because of the inherent credit risk of receivables, management has subjective and significant judgments with the balance of allowance for bad debts from receivables. Therefore this is one of the key areas our audit focused on.

How the matter was addressed in our audit:

In relation to the key audit matter above, our principal audit procedures included understanding the processes of account checking with customers and collecting; analyzing receivable aging report; assessing the reasonableness of the provision of receivable by reviewing the historical accuracy on provision, historical receipt records, industrial economy, and concentration of credit risk of its customers; and considering the adequacy of the Company's disclosures in the accounts.

Responsibilities of Management and Those Charged with Governance for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with Regulations Governing the Preparation of Financial Reports by Securities Issuers, and for such internal control as management determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, the management is responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting. Unless the management either intends to liquidate the Company or to cease its operations, there is no realistic alternative but to do so.

Those charged with governance are responsible for overseeing the Company's financial reporting process.

Auditors' Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditors' report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with the auditing standards generally accepted in the Republic of China will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit in accordance with the auditing standards generally accepted in the Republic of China, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

1. Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
2. Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Company's internal control.
3. Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.

4. Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditors' report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditors' report. However, future events or conditions may cause the Company to cease to continue as a going concern.
5. Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.
6. Obtain sufficient appropriate audit evidence regarding the financial information of the investment in other entities accounted for using the equity method to express an opinion on these financial statements. We are responsible for the direction, supervision and performance of the audit. We remain solely responsible for our audit opinion.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditors' report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

The engagement partners on the audit resulting in this independent auditors' report are Po Jen, Yang and Kuo Tsung, Chen.

Independent Auditors' Report

To the Board of Directors of Emerging Display Technologies Corp.:

Opinion

We have audited the accompanying consolidated financial statements of Emerging Display Technologies Corp. and subsidiaries (the Group), which comprise the consolidated balance sheets as of December 31, 2017 and 2016, the consolidated statement of comprehensive income, changes in equity and cash flows for the years ended December 31, 2017 and 2016, and notes to the consolidated financial statements, including a summary of significant accounting policies.

In our opinion, the Group's consolidated financial statements present fairly, in all material respects, the consolidated financial position of the Group as of December 31, 2017 and 2016, and its consolidated financial performance and its cash flows for the years then ended in accordance with the Regulations Governing the Preparation of Financial Reports by Securities Issuers and the International Financial Reporting Standards(IFRS), International Accounting Standards(IAS), IFRIC Interpretations(IFRIC), and SIC Interpretations(SIC) endorsed and issued into effect by the Financial Supervisory Commission of the Republic of China.

Basis for Opinion

We conducted our audit in accordance with the Regulations Governing Auditing and Certification of Financial Statements by Certified Public Accountants, and the auditing standards generally accepted in the Republic of China. Our responsibilities under those standards are further described in the Auditors' Responsibilities for the Audit of the Consolidated Financial Statements section of our report. We are independent of the Group in accordance with the Certified Public Accountants Code of Professional Ethics in Republic of China ("the Code"), and we have fulfilled our other ethical responsibilities in accordance with the Code. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis of our opinion.

Key Audit Matters

Key audit matters are those matters that, in our professional judgment, were of most significance in our audit of the consolidated financial statements of the current period. These matters were addressed in the context of our audit of the consolidated financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters. The key audit matters we judged shall be presented in the consolidated financial report as follows:

1. Valuation of inventory

Please refer to Note 4(h) Inventories and Note 5(b) of the consolidated financial statements for inventories and accounting estimate of inventory valuation, respectively. Information regarding the inventory is shown in Note 6(g) of the consolidated financial statements.

Description of key audit matters:

Inventory is carried at the lower of cost and net realizable value. Net realizable value is the estimated selling price in the ordinary course of business, less the estimated costs of completion and selling expenses. The Group is engaged in the manufacture and sale of liquid crystal displays and capacity touch panels. The Group focuses on the small and medium sized niche markets of non-consumable area. The products are used in industrial equipment, smart home devices, handheld devices, and information appliance products. The development strategy of the Group is focused on diversified and customized product. The impact to assess provision includes the purchasing and write down of the components which are used in diversified and customized products, the management of safety stocks levels, and production planning which effects the inventory cost. As a result there is a risk that the net realizable value of inventory falls below its carrying value. Therefore this is one of the key areas our audit focused on.

How the matter was addressed in our audit:

In relation to the key audit matter above, our principal audit procedures included selecting samples to test the accuracy of inventory aging report; analyzing the changes of inventory aging; assessing the reasonableness of the accounting policy, such as provision of inventory valuation and obsolescence, reviewing the accuracy of prior year's inventory allowance and understanding the basis of selling price used by the management for evaluating the reasonableness of the net realizable value. Moreover, assessing the changes of obsolescence inventory in the subsequent events, and the basis of net realizable value to evaluate the accuracy of the Group's provisions. In addition, assessing the appropriateness of the provisions and disclosures made by the management.

2. Valuation of receivable

Please refer to Note 4(g) and Note 5(a) of the consolidated financial statement for receivable and accounting estimate of receivable valuation, respectively. Information regarding the account receivable impairment assessment is shown in Note 6 (f) of the consolidated financial statement.

Description of key audit matters:

The Group's customers are the manufacturers of industrial equipment, smart home devices, handheld devices, and information appliance product. The cause of some customers delayed payment was there is a need to clarify the responsibility of problematic products that resulted from the failure of process or the usage of end product. Because of the inherent credit risk of receivables, management has subjective and significant judgments with the balance of allowance for bad debts from receivables. Therefore this is one of the key areas our audit focused on.

How the matter was addressed in our audit:

In relation to the key audit matter above, our principal audit procedures included understanding the processes of account checking with customers and collecting; analyzing receivable aging report; assessing the reasonableness of the provision of receivable by reviewing the historical accuracy on provision, historical receipt records, industrial economy, and concentration of credit risk; and considering the adequacy of the Group's disclosures in the accounts.

Other Matters

We have also audited the parent company only financial statement of Emerging Display Technologies Corp. as of and for the years ended December 31, 2017 and 2016 on which we have issued an unmodified opinion.

Responsibilities of Management and Those Charged with Governance for the Consolidated Financial Statements

Management is responsible for the preparation and fair presentation of the consolidated financial statements in accordance with Regulations Governing the Preparation of Financial Reports by Securities Issuers and the IFRS, IAS, IFRIC, and SIC endorsed and issued into effect by the Financial Supervisory Commission of the Republic of China, and for such internal control as management determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the consolidated financial statements, the management is responsible for assessing the Group's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting. Unless the management either intends to liquidate the Group or to cease its operations, there is no realistic alternative but to do so.

Those charged with governance including supervisors are responsible for overseeing the Group's financial reporting process.

Auditors' Responsibilities for the Audit of the Consolidated Financial Statements

Our objectives are to obtain reasonable assurance about whether the consolidated financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditors' report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with the auditing standards generally accepted in the Republic of China will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these consolidated financial statements.

As part of an audit in accordance with the auditing standards generally accepted in the Republic of China, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- a. Identify and assess the risks of material misstatement of the consolidated financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- b. Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Group's internal control.
- c. Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- d. Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Group's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditors' report to the related disclosures in the consolidated financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditors' report. However, future events or conditions may cause the Group to cease to continue as a going concern.
- e. Evaluate the overall presentation, structure and content of the consolidated financial statements, including the disclosures, and whether the consolidated financial statements represent the underlying transactions and events in a manner that achieves fair presentation.
- f. Obtain sufficient appropriate audit evidence regarding the financial information of the entities or business activities within the company to express an opinion on this consolidated financial statements. We are responsible for the direction, supervision and performance of the audit. We remain solely responsible for our audit opinion.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the consolidated financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditors' report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

The engagement partners on the audit resulting in this independent auditors' report are Po Jen, Yang and Kuo Tsung, Chen.

APPENDIX 1

Emerging Display Technologies Corp. Rules of Procedures for Shareholders' Meeting

- Article 1 Shareholders' Meeting of the Company (the "Meeting") should be conducted in accordance with this Rules of Procedures.
- Article 2 Shareholders or their proxies shall attend the Meeting based on attendance certificates and submit the attendance cards for the purpose of signing in. The number of shares represented by shareholders attending the Meeting shall be calculated in accordance with the attendance cards by the shareholders. The attendance and voting of the Meeting should be calculated based on number of shares.
- Article 3 Chairman shall call the Meeting to order when the number of shares represented by shareholders exceeded half of total outstanding shares. If the number of shares represented by the shareholders present at the Meeting has not yet constituted the quorum at the time scheduled for the Meeting, the chairman may postpone the time for the Meeting. The postponements shall be limited to two times at the most. If after two postponements no quorum can yet be constituted but the shareholder present at the Meeting represent more than one-third of the total outstanding shares, tentative resolutions may be made in accordance with Section 1 of Article 175 of the Company Law of the Republic of China. The chairman may announce the Meeting at any time and submit the tentative resolutions to the Meeting for approval if the number of outstanding shares represented by the shareholders present becomes sufficient to constitute the quorum during the process of the Meeting.
- Article 4 The venue for a Meeting shall be the premises of the Company, or a place easily accessible to shareholders and suitable for a Meeting. The Meeting may begin no earlier than 9 a.m. and no later than 3 p.m.
- Article 5 The Chairman of the Board of Directors shall be the chairman presiding at the Meeting in the case the Meeting is convened by the Board of Directors. If, for any reason, the Chairman of the Board of Directors cannot preside at the Meeting, the Chairman should designated one of Directors to preside at the Meeting. Where the Chairman doesn't designate a proxy, Directors may elect a person among themselves to act on behalf of Chairman. When the Meeting is convened by other persons who have the convening right, the Meeting shall be presided by the convener. If there are over two conveners, they

should elect one as chairman. In the event that the chairman adjourns the Meeting in violation of these Rules of Procedures, the shareholders may designate, by a majority of votes represented by shareholders attending the Meeting, one person as chairman to continue the Meeting. After the adjournment of the Meeting, the shareholders may not elect a chairman to continue the Meeting at the original address or at another location.

Article 6 The Company may appoint designated counsel, CPA, or other related persons to attend the Meeting and answer related questions. Persons handling affairs of the Meeting shall wear identification cards or badges.

Article 7 The process of the Meeting shall be tape recorded or videotaped and these tapes shall be preserved for at least one year.

Article 8 The agenda of the Meeting shall be set by the Board of Directors if the Meeting is convened by the Board of Directors. Unless otherwise resolved at the Meeting, the Meeting shall proceed in accordance with the agenda. The above provision applies mutatis mutandis to cases where the Meeting is convened by any person, other than the Board of Directors, entitled to convene such Meeting. Unless otherwise resolved at the Meeting, the chairman cannot announce adjournment of the Meeting before all the discussion items (include special motions) listed in the agenda are resolved. After the adjournment of the Meeting, the shareholders may not elect a chairman to continue the Meeting at the original address or at another location.

Article 9 When a shareholder present at the Meeting wishes to speak, a Speech Note should be filled out with summary of the speech, the shareholder's number and name. The sequence of speeches by shareholders should be decided by the chairman. If any shareholder present at the Meeting submit a Speech Note but does not speak, no speech should be deemed to have been made by such shareholder. In case the contents of the speech of a shareholder are inconsistent with the contents of the Speech Note, the contents of actual speech shall prevail. Unless otherwise permitted by the chairman and the shareholder in speaking, no shareholder shall interrupt the speeches of the other shareholders, otherwise the chairman shall stop such interruption.

Article 10 Unless otherwise permitted by the chairman, each shareholder shall not, for each discussion item, speak more than twice and each time not exceeding 5 minutes. In case of speech of any shareholder violates the above provision or exceeds the scope of the discussion item, the chairman may stop the speech of such shareholder.

- Article 11 A corporate shareholder can only designated one representative to attend the Meeting. If a corporate shareholder designated two or more representatives to attend the Meeting, only one representative can speak for each discussion item.
- Article 12 After the speech of a shareholder, the chairman may respond himself/herself or appoint an appropriate person to respond.
- Article 13 The chairman may announce to end the discussion of any resolution and go into voting if the chairman deems it appropriate.
- Article 14 Except as otherwise provided in the Company Act, the adoption of a discussion shall require an affirmative vote of a majority of the voting rights represented by the attending shareholders. At the time of a vote, for each discussion item, the chairman shall inquiry if there is no one opposed, then the discussion item should be deemed adopted and the effect is the same as voting. A shareholder shall be entitled to one vote for each share held, except when the shares are deemed non-voting shares held by the Company. When one person is concurrently appointed as proxy by two or more shareholders, the voting rights represented by that proxy may not exceed 3 percent of the voting rights represented by the total number of issued shares. If that percentage is exceeded, the voting rights in excess of that percentage shall not be included in the calculation.
- Article 15 If there is amendment to or substitute for a discussion item, the chairman shall decide the sequence of voting for such discussion item, the amendment or the substitute. If any one of them has been adopted, the others shall be deemed vetoed and no further voting is necessary.
- Article 16 The persons to check and the persons to record the ballots during a vote by casting ballots shall be appointed by the chairman. The persons checking the ballots shall be a shareholder. The result of voting shall be announced at the Meeting and placed on record.
- Article 17 The chairman may conduct the disciplinary officers or the security guard to assist in keeping order of the Meeting place. Such disciplinary officers or security guards shall wear badges marked "Disciplinary Officers".
- Article 18 When a Meeting is in progress, the chairman may announce a break based on time considerations.
- Article 19 Any matter not provided in this Rules of Procedures shall be handled in accordance with the Company Act or Article of Incorporation of the Company.
- Article 20 These Rules, and any amendments hereto, shall be implemented after adoption by shareholders' meetings.

The procedures of related party transactions:

1. When the company engages in any acquisition or disposal of assets from or to a related party, in addition to ensuring that the necessary resolutions are adopted and the reasonableness of the transaction terms is appraised, if the transaction amount reaches 10 percent or more of the company's total assets, the company shall also obtain an appraisal report from a professional appraiser or a CPA's opinion in compliance with the provisions of Article 7, 8, 10 and this article. The calculation of the transaction amounts referred to in this article shall be done in accordance with Article 14, paragraph 1, subparagraph H herein, and "within the preceding year" as used herein refers to the year preceding the date of occurrence of the current transaction. Items for which an appraisal report from a professional appraiser or a CPA's opinion has been obtained need not be counted toward the transaction amount. When judging whether a trading counterparty is a related party, in addition to legal formalities, the substance of the relationship shall also be considered.
2. Appraising and operating procedures: When a public company intends to acquire or dispose of real property from or to a related party, or when it intends to acquire or dispose of assets other than real property from or to a related party and the transaction amount reaches 20 percent or more of paid-in capital, 10 percent or more of the company's total assets, or NT\$300 million or more, except in trading of government bonds or bonds under repurchase and resale agreements, or subscription or redemption of money market funds issued by domestic securities investment trust enterprises, the company may not proceed to enter into a transaction contract or make a payment until the following matters have been approved by the board of directors and recognized by the supervisors:
 - A. The purpose, necessity and anticipated benefit of the acquisition or disposal of assets.
 - B. The reason for choosing the related party as a trading counterparty.
 - C. With respect to the acquisition of real property from a related party, information regarding appraisal of the reasonableness of the preliminary transaction terms in accordance with paragraph 3, subparagraph A to subparagraph D.
 - D. The date and price at which the related party originally acquired the real property, the original trading counterparty, and that trading counterparty's relationship to the company and the related party.
 - E. Monthly cash flow forecasts for the year commencing from the anticipated month of signing of the contract, and evaluation of the necessity of the transaction, and reasonableness of the funds utilization.
 - F. An appraisal report from a professional appraiser or a CPA's opinion obtained in compliance with the preceding paragraph.
 - G. Restrictive covenants and other important stipulations associated with the transaction.

The calculation of the transaction amounts referred to in this article shall be done in accordance with Article 14, paragraph 1, subparagraph H herein, and "within the preceding year" as used herein refers to the year preceding the date of occurrence of the current transaction. Items for which an appraisal report from a professional appraiser or a CPA's opinion has been obtained need not be counted toward the transaction amount.

With respect to the acquisition or disposal of business-use equipment between the company and subsidiaries, the company's board of directors may delegate the board chairman to decide such matters when the transaction is within a certain amount and have the decisions subsequently submitted to and ratified by the next board of directors meeting.

Where the position of independent director has been created in accordance with the provisions of the Act, when a transaction involving the acquisition or disposal of assets is submitted for discussion by the board of directors pursuant to the preceding paragraph, the board of directors shall take into full consideration each independent director's opinions. If an independent director objects to or expresses reservations about any matter, it shall be recorded in the minutes of the board of directors meeting. Where an audit committee has been established in accordance with the provisions of the Act, any transaction involving major assets or derivatives shall be approved by more than half of all audit committee members and submitted to the board of directors for a resolution, and shall be subject to mutatis mutandis application of Article 18, paragraphs 4 and paragraphs 5.

3. Evaluating the reasonableness of the transaction costs:

- A. The company that acquires real property from a related party shall evaluate the reasonableness of the transaction costs by the following means:
 - a. Based upon the related party's transaction price plus necessary interest on funding and the costs to be duly borne by the buyer. "Necessary interest on funding" is imputed as the weighted average interest rate on borrowing in the year the company purchases the property; provided, it may not be higher than the maximum non-financial industry lending rate announced by the Ministry of Finance.
 - b. Total loan value appraisal from a financial institution where the related party has previously created a mortgage on the property as security for a loan; provided, the actual cumulative amount loaned by the financial institution shall have been 70 percent or more of the financial institution's appraised loan value of the property and the period of the loan shall have been 1 year or more. However, this shall not apply where the financial institution is a related party of one of the trading counterparties.
- B. Where land and structures thereupon are combined as a single property purchased in one transaction, the transaction costs for the land and the structures may be separately appraised in accordance with either of the means listed in subparagraph A.
- C. The company that acquires real property from a related party and appraises the cost of the real property in accordance with subparagraph A and subparagraph B shall also engage a CPA to check the appraisal and render a specific opinion.
- D. When the results of the company's appraisal conducted in accordance with subparagraph A and subparagraph B are uniformly lower than the transaction price, the matter shall be handled in compliance with subparagraph E. However, where the following circumstances exist, objective evidence has been submitted and specific opinions on reasonableness have been obtained from a professional real property appraiser and a CPA have been obtained, this restriction shall not apply:

- a. Where the related party acquired undeveloped land or leased land for development, it may submit proof of compliance with one of the following conditions:
- Where undeveloped land is appraised in accordance with the means in subparagraph A to subparagraph C , and structures according to the related party's construction cost plus reasonable construction profit are valued in excess of the actual transaction price. The "Reasonable construction profit" shall be deemed the average gross operating profit margin of the related party's construction division over the most recent 3 years or the gross profit margin for the construction industry for the most recent period as announced by the Ministry of Finance, whichever is lower.
 - Completed transactions by unrelated parties within the preceding year involving other floors of the same property or neighboring or closely valued parcels of land, where the land area and transaction terms are similar after calculation of reasonable price discrepancies in floor or area land prices in accordance with standard property market practices.
 - Completed leasing transactions by unrelated parties for other floors of the same property from within the preceding year, where the transaction terms are similar after calculation of reasonable price discrepancies among floors in accordance with standard property leasing market practices.
- b. Where the company acquiring real property from a related party provides evidence that the terms of the transaction are similar to the terms of transactions completed for the acquisition of neighboring or closely valued parcels of land of a similar size by unrelated parties within the preceding year. Completed transactions for neighboring or closely valued parcels of land in the preceding paragraph in principle refers to parcels on the same or an adjacent block and within a distance of no more than 500 meters or parcels close in publicly announced current value; transaction for similarly sized parcels in principle refers to transactions completed by unrelated parties for parcels with a land area of no less than 50 percent of the property in the planned transaction; within the preceding year refers to the year preceding the date of occurrence of the acquisition of the real property.
- E. Where the company acquires real property from a related party and the results of appraisals conducted in accordance with subparagraph A to subparagraph D are uniformly lower than the transaction price, the following steps shall be taken. The company and a public company uses the equity method to account for its investment in the company that has set aside a special reserve under the following description may not utilize the special reserve until it has recognized a loss on decline in market value of the assets it purchased at a premium, or they have been disposed of, or adequate compensation has been made, or the status quo ante has been restored, or there is other evidence confirming that there was nothing unreasonable about the transaction, and the FSC has given its consent.
- a. A special reserve shall be set aside in accordance with Article 41, paragraph 1 of the Act against the difference between the real property transaction price and the appraised cost, and may not be distributed or used for capital increase or issuance of bonus shares. Where a public company uses the equity method to account for its investment in the company, then the special reserve called for under Article 41, paragraph 1 of the Act shall be set aside pro rata in a proportion consistent with the share of public company's equity stake in the company.
- b. Supervisors shall comply with Article 218 of the Company Act.

- c. Actions taken pursuant to a. and b. of subparagraph E shall be reported to a shareholders meeting, and the details of the transaction shall be disclosed in the annual report and any investment prospectus.
- F. Where the company acquires real property from a related party and one of the following circumstances exists, the acquisition shall be conducted in accordance with paragraph 1 and paragraph 2, but shall not apply paragraph 3, subparagraph A to subparagraph C:
 - a. The related party acquired the real property through inheritance or as a gift.
 - b. More than 5 years will have elapsed from the time the related party signed the contract to obtain the real property to the signing date for the current transaction.
 - c. The real property is acquired through signing of a joint development contract with the related party, or through engaging a related party to build real property, either on the company's own land or on rented land.
- G. When the company obtains real property from a related party, it shall also comply with paragraph 3, subparagraph E if there is other evidence indicating that the acquisition was not an arm's length transaction.

APPENDIX 4

Emerging Display Technologies Corp. Directors and Supervisors Election Rule

- Article 1 This rule is set based on the regulation in the Company Act and Articles of Incorporation. The elections of the company directors and supervisors shall follow the regulation under this rule.
- Article 2 The elections of the company directors and supervisors shall be held during the shareholders' meeting.
- Article 3 The elections of the company directors and supervisors shall use the cumulative voting method unless other regulations were stated in Articles of Incorporation. Attendance card numbers printed on the ballots may be used instead of the names of voters. For the elections of the company directors and supervisor, each share will have the voting right equal to the numbers required for the directors and supervisors. Votes can be casted to the same or different candidates.
- Article 4 The number required for the company directors and supervisors are referred to the Articles of Incorporation. Those receiving ballots representing the highest numbers of voting rights will be elected sequentially as directors or supervisors. If two candidates received the same number of votes and exceed the required number, they shall draw lots to determine the result. The Chairmen can draw lots if the candidate is absent.
- If a candidate is elected as a director and a supervisor at the same time, he or she shall decide by himself or herself whether to be a director or a supervisor, and cannot be both at the same time.
- If a candidate is a juristic-person representative and a shareholder and is elected as a director and a supervisor, he or she shall decide to be a director or a supervisor under the identity of a juristic-person or a shareholder. The vacancy shall be filled by the candidate with the next highest numbers of voting rights.
- Article 5 In the beginning of the election, the Chairman shall appoint a number of personnels to perform duties of monitor voting status and count voting result.
- Article 6 The ballot shall be made and provided by the company. It shall be numbered by the attendance number and noted with the number of voting rights.
- Article 7 The voter shall enter the candidate's account name and note the shareholder account number or unified business number in the candidate column of the ballot. If the candidate is a juristic-person shareholder, the name of the juristic-person and/or its representative's name shall be entered in the candidate column of the ballot.
- Article 8 Ballot is invalid under these circumstances:
1. Using a ballot that is not prepared by the company.
 2. A blank ballot is casted in the ballot box.
 3. Unable to identify the writing or it's been altered.

4. Two or more candidates' names are filled in a ballot.
5. The name of the candidate filled in a ballot is identical to other shareholder but did not enter the shareholder number or unified business number for verification.

Article 9 The voting result shall be checked if the sum of the valid and invalid ballots is correct by the vote monitoring personnel. The valid ballots and the voting rights shall be filled in the record chart, then the names of the winners shall be announced by the Chairman.

Article 10 If there is a question of a ballot, the vote monitoring personnel shall verify if it's valid. Invalid ballots shall be marked invalid and signed after the vote counting.

Article 11 A notification shall be issued to the elected directors and supervisors by the Board of Directors.

Article 12 Over half of the members of the directors and supervisors and among supervisors or among supervisors and directors, at least one shall not be related as one of the following:

1. Spouses
2. Second-degree relatives.

Article 13 When the elected director or supervisor did not meet the condition stated in the previous article, the following method shall be used to determine which director or supervisor is elected.

1. For those who did not meet the condition among directors, the director who received the least ballot has the lowest number of the voting right and shall be deemed invalid.
2. For those who did not meet the condition among supervisors, the previous subparagraph is applied.
3. For those who did not meet the condition among supervisors and directors, the supervisors who received the least ballot has the lowest number of the voting right and shall be deemed invalid.

Article 14 Any matter not listed in this rule shall be handled in accordance with the Company Act and related regulations.
