Independent Auditors' Review Report

The Board of Director's
Emerging Display Technologies Corp

Introduction

We have reviewed the accompanying consolidated balance sheets of Emerging Display Technologies Corp. (the Company) and subsidiaries as of June 30, 2022 and 2021, and the related consolidated statements of comprehensive income for the three months and the six months ended June 30, 2022 and 2021, and changes in equity and cash flows for the six months ended June 30, 2022 and 2021, and notes to the consolidated financial statements, including a summary of significant accounting policies. Management is responsible for the preparation and fair presentation of the consolidated financial statements in accordance with the Regulations Governing the Preparation of Financial Reports by Securities Issuers and International Accounting Standard 34, "Interim Financial Reporting" endorsed issued into effect by the Financial Supervisory Commission of the Republic of China. Our responsibility is to express a conclusion on the consolidated financial statements based on our reviews.

Scope of Review

Except as explained in the Basis for Qualified Conclusion paragraph, we conducted our reviews in accordance with Statement of Auditing Standards 65, "Review of Financial Information Performed by the Independent Auditor of the Entity". A review of the consolidated financial statements consists of making inquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. A review is substantially less in scope than an audit conducted in accordance with the generally accepted auditing standards and consequently does not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly, we do not express an audit opinion.

Basis for Qualified Conclusion

As stated in Note 4(b), the consolidated financial statements included the financial statements of certain nonsignificant subsidiaries, which were not reviewed by independent accountants. These financial statements reflect total assets amounting to \$332,272 thousand and \$244,409 thousand, constituting 8.46% and 6.77% of consolidated total assets as of June 30, 2022 and 2021, respectively, total liabilities amounting to \$109,449 thousand and \$103,173 thousand, constituting 5.89% and 6.08% of consolidated total liabilities as of June 30, 2022 and 2021, respectively, and total comprehensive income amounting to gain \$5,853 thousand, loss \$15,232 thousand, gain \$23,766 thousand and loss \$18,500 thousand, constituting 8.68%, 49.20%, 12.75% and 15.13% of consolidated total comprehensive income for the three months and the six months ended June 30, 2022 and 2021, respectively.

Qualified Conclusion

Based on our reviews, except for the effects of the adjustments, if any, as might have been determined to be necessary had the financial statements of certain consolidated subsidiaries and equity accounted investee companies described in the Basis for Qualified Conclusion paragraph above been reviewed by independent accountants, nothing has come to our attention that causes us to believe that the accompanying consolidated financial statements do not present fairly, in all material respects, the consolidated financial position of the Company as of June 30, 2022 and 2021, and its consolidated financial performance for the three months and six months ended June 30, 2022 and 2021, as well as its consolidated cash flows for the six months ended June 30, 2022 and 2021 in accordance with the Regulations Governing the Preparation of Financial Reports by Securities Issuers and the International Accounting Standard 34, “Interim Financial Reporting” endorsed and issued into effect by the Financial Supervisory Commission of the Republic of China.

The engagement partners on the audit resulting in this independent auditors’ review report are Yung Hsiang, Chen and Yen Ta, Su.

The Group's exposure to foreign currency risk arises from the translation of the cash and cash equivalents, accounts receivables, other receivables, financial assets and liabilities at fair value through profit or loss, financial assets measured at fair value through other comprehensive income, accounts payables, and other payables. As of June 30, 2022 and 2021, if the exchange rate of the TWD versus the USD, CNY, JPY, and EUR have increased or decreased by 1%, given no changes in other factors, profit after tax would have increased or decreased by \$6,313 and \$5,319, respectively, and other comprehensive income after tax would have increase or decrease by \$0 and \$108, respectively. The analysis is performed on the same basis of prior year.

The Group has variety kinds of functional currencies, hence we use summarized method to disclose exchange gain (loss) of monetary items. For the three months and the six months ended June 30, 2022 and 2021, foreign exchange gain or loss (including realized and unrealized) amounted to gain \$29,560, loss \$15,741, gain \$63,095 and loss \$23,830, respectively.

2) Interest rate analysis

Please refer to liquidity risk management for the detail of the Group's financial liabilities' interest exposure.

The sensitivity analysis of interest was made based on the interest rate of derivative and non-derivative instruments at the reporting date. The analysis of liabilities bearing floating interest rates was prepared based on the assumption that the outstanding amount at the reporting date had existed for the whole year. When internal report to the Group's top management regarding the interest rate change, they use 0.25% increase or decrease of interest rate assumption as the interest rate change which also represents this is the reasonable interest rate range assessed by the top management.

If interest rates on loans had increased or decreased by 0.25% with all other variables held constantly, profit after tax for the six months ended June 30, 2022 and 2021 would have been decreased or increased by \$400 and \$508, respectively, mainly as a result of liabilities bearing floating interest rates.

EMERGING DISPLAY TECHNOLOGIES CORP. AND SUBSIDIARIES

3) Other price risk

If the prices of financial instrument change at reporting date, with all other variables held constant, the influences were as follows :

Equity price at reporting date	For the six months ended June 30			
	2022		2021	
	Other comprehensive income after tax	Net profit (loss)	Other comprehensive income after tax	Net profit (loss)

(iv) Fair value

1) Categories and fair values of financial instruments

The fair value of financial assets and liabilities at fair value through profit or loss, and financial assets at fair value through other comprehensive income, are measured on a recurring basis. The following table shows the carrying amount and fair value of financial assets and financial liabilities, including their levels in the fair value hierarchy. It does not include fair value information on financial assets and financial liabilities not measured at fair value if the carrying amount is a reasonable approximation of fair value and on investments in equity instruments which do not have any quoted price in an active market and lease liability.

Notes to consolidated financial statements

The Group measures its assets and liabilities use input observable market data. The fair value hierarchy categorizes the inputs used in valuation techniques are as follows :

- Level 1: quoted prices (unadjusted) in the active markets for identified assets or liabilities.
- Level 2: inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly (i.e., as prices) or indirectly (i.e., derived from prices).
- Level 3: inputs for the asset or liability that are not based on observable market data (unobservable inputs).

2) Valuation techniques and assumptions used in fair value determination

Non-derivative instruments

If a financial instrument has a quoted price in an active market, the quoted price is used as fair value. Quoted prices of major stock exchanges and quoted prices of government bonds are the basis for measuring the fair value of stocks listed on an exchange, stocks listed on the OTC, and debt instruments with quoted prices in an active market.

The fair values of the Group's listed securities and open-end funds with standard terms and conditions and traded in active markets are determined by the quoted market prices.

Measurements of fair value of financial instruments without active market are based on valuation technique. Fair value measured by valuation technique can be extrapolated from similar financial instruments, discounted cash flow method or other valuation technique. Using discounted cash flow method to calculate fair value, the main assumption is to reflect monetary time value and return of invest risk to discount and measure based on investee's estimated future cash flow.

Derivative instruments

The fair value of Swap contracts and Forward exchange contracts is based on quoted prices from the counterparty.

3) Transfer between level 1 and level 2

There was no transfer between the fair value hierarchy levels for the year ended June 30, 2022 and 2021.

Recognized in other comprehensive income		(5,556)
Balance at June 30, 2021	\$	92,270

- 5) Quantified information on significant unobservable inputs (Level 3) used in fair value measurement

The Group's financial instruments that use Level 3 inputs to measure fair value include financial assets measured at fair value through other comprehensive income— equity investments.

The Group's equity investments without active market in Level 3 have more than one significant unobservable input. The significant unobservable inputs of equity investments without active market are individually independent, and there is no correlation between them.

Quantified information of significant unobservable inputs was as follows :
